# Amity Software Launches Delhi Government Web Portals Under e-Governance Initiative

We're excited to share a big win from our e-Governance Division! Amity Software has successfully developed, designed, and deployed **five new web portals** for the **Delhi Government**, all part of the Delhi State Portal and Associated Websites project.

The initiative is aimed at improving access to public services, enhancing transparency, and streamlining citizen interactions with government departments. Each portal was built with a focus on user experience, security, and scalability to ensure reliable service delivery across key sectors.

This achievement reinforces Amity Software's continued commitment to supporting the Digital India mission and driving innovation in public service platforms. By enabling smarter governance through technology, we are proud to contribute to building a more accessible and efficient digital future for Delhi.

This launch stands as a testament to the expertise and dedication of the teams involved—well done to everyone who made it possible.

## Amity Software Powers EESL's ERP Operations in Second Year of Strategic Partnership

Amity Software Limited continues to support Energy Efficiency Services Limited (EESL), a flagship organization of Government of India, through a multi-year SAP ERP contract now in its

second year. The engagement covers critical business modules including **Finance, Material Management, Sales Distribution, HRMS, and Basis Support**. EESL, a leader in driving nationwide energy efficiency, benefits from streamlined operations and improved data-driven decision-making. This partnership reinforces Amity Software's commitment to delivering robust digital solutions for public sector transformation and national sustainability goals.

## Amity Software Strengthens SAP ERP Support Across TGI Group and Its Subsidiaries

Amity Software Limited continues to play a key role in the digital evolution of the Tropical Group of Industries (TGI)—a leading global trading organization operating across the Middle East, India, and Africa.

For over six years, Amity Software has been providing robust SAP ERP support to TGI under a multiyear engagement after Greenfield Implementation. The implementation and support spans critical business modules such as **Finance, Management Controlling, Material Management, Sales & Distribution, and Treasury Management**.

Building on this long-standing partnership, Amity Software has implemented SAP ERP in TIPL India and Nutridor LLC Dubai—subsidiaries of the

TGI Group—further reinforcing its commitment to delivering enterprise-wide process excellence and IT continuity across multiple regions.

This expansion reflects Amity's growing foot print as a trusted SAP service partner in the global trading and manufacturing domain.

## Amity & Global Insurance Finalize Requirements, Next Phase Begins

We're excited to share that Amity Software and Global Insurance S.C.; Ethiopia have formally finalized the requirement specifications for the **AmityAssure** implementation. This key achievement clears the path for the next phase—customization and configuration of our robust core insurance software. The successful completion of this stage reflects seamless collaboration, a clear understanding of business needs, and strong alignment between both teams. As we move forward, the focus will shift to tailor **AmityAssure** to meet specific client requirements.

## Amity Software Begins Strategic System Study with Family Bank Limited

Our banking team has recently set the wheels in motion for a major engagement with Family Bank Limited, diving into a full-scale system study aimed at transforming the bank's core operations. The study aims to assess existing systems, identify operational bottlenecks, and define the functional and technical roadmap for future development. This phase is critical in setting the foundation for a robust and agile digital banking solution tailored to Family Bank's unique needs.

What makes this exciting is the complexity and scale of the bank's operations. The team is navigating through existing system, regulatory frameworks, and diverse stakeholder needs — all while aligning with the broader goal of building a more agile and resilient digital banking platform. Amity's team is working closely with Family Bank's leadership and operational teams to ensure alignment of vision and objectives.

We look forward to sharing more updates as this exciting journey unfolds!

## Amity Software Begins AMS Implementation for Dangote Sugar Refinery, Nigeria

Amity Software has officially begun implementation of its flagship **Agriculture Management System (AMS)** for Dangote Sugar Refinery, Nigeria—one of Africa's largest sugar producers.

After securing the project, our team began requirement gathering and gap analysis phase at DSR Numan, Nigeria. Work is also underway on a customized AMS solution to digitize and streamline sugarcane cultivation, farm operations management, and sugarcane processing operations. Project kick-off conducted under presence of DSR GMD with entire top management team of DSR, Nigeria. With this implementation, Amity aims to enhance operational efficiency and data-driven decision-making for the Dangote Sugar Refinery. The project marks another step forward in expanding Amity's presence in the African Agriculture sector. Further updates will be shared in upcoming editions.

## Amity Software Implements NSWS at Shakumbari Sugar & Allied Industries Limited

In a significant milestone for Amity Software, the National Single Window System (NSWS) has been successfully implemented at Shakumbari Sugar and Allied Industries Limited. The project is scheduled to go live in May 2025 after successful User Acceptance Testing (UAT) and hands-on training for key users.

All necessary data has been uploaded to the government portal, ensuring full compliance and operational readiness. This marks the 30th+ successful NSWS implementation by Amity Software in the sugar industry, reinforcing our reputation for timely delivery and high-quality solutions.

## Amity Finance Module UAT nears Completion at Dwarikesh Sugar Industries

In a remarkable stride towards digital transformation, the User Acceptance Testing (UAT) of the **Amity Finance Module (ERP)** is approaching its final

phase at Dwarikesh Sugar Industries Limited (DSIL). This marks a significant milestone in the project, ensuring the system aligns with all functional and business requirements set by DSIL.

During the UAT, key areas like system performance, data accuracy, and user experience are being thoroughly tested. With rigorous testing well underway, the module is poised for a smooth transition into deployment.

The successful completion of UAT will pave the way for the official launch of the Amity Finance Module, anticipated in June 2025. This milestone reflects the relentless dedication and collaborative spirit of the entire project team, whose efforts have been instrumental in driving the project towards this momentous achievement.

## 250+ IT Manpower Deployed through NICSI for Govt. of India

Amity Software has successfully deployed over 250 skilled tech professionals across India through the National Informatics Centre Services Inc. (NICSI). These professionals are supporting various crucial government departments, including the Ministry of Defense, Prime Minister's Office (PMO), Ministry of Rural Development, Ministry of Home Affairs, and Ministry of Human Resource Development (HRD) etc. We have recently expanded our manpower services to West Bengal, Goa, Rajasthan, and Maharashtra, strengthening our national presence and support to government initiatives.

The IT manpower are employed in diverse technical roles such as SAP, .Net, PHP, and other IT-related functions, catering to the specific needs of each ministry. This collaboration, which began in September 2022, showcases Amity Software's commitment to delivering high-quality IT solutions in partnership with NICSI.

## Amity Insights

# Mr. Pankaj K. Choudhary Appointed as CEO and Executive Director

Amity Software has announced the promotion of Mr. Pankaj K. Choudhary as its new Chief Executive Officer (CEO) and Executive Director. With 27 years of experience at the company, Mr. Choudhary has been integral to the organization's growth and success. His extensive industry knowledge and leadership have played a significant role in shaping Amity Software's achievements. In his new role, Mr. Choudhary will continue to guide the company's strategic direction and growth in the global market. This promotion marks a new chapter for Amity Software as it looks to expand its reach further in the chosen industry segments through innovative solution offerings.

## Celebrations at Amity!

**Holi Celebration:** Amity Software recently hosted a vibrant Holi celebration at its office premises, ensuring a joyous and memorable day for all employees.

The event was filled with color as employees joyfully played Holi, throwing colors at each other and sharing sweets. The day was marked by lively music, laughter, and numerous photos, capturing the spirit of the festival. This celebration highlights Amity's

commitment to fostering a vibrant and inclusive workplace culture, where every festival is celebrated with joy and unity.

**International Women's Day Celebration:** Amity Software marked International Women's Day with a special celebration recognizing the pivotal role of female employees in the company's success. The event, hosted by Nitin Bisht, Human Resource Manager, was attended by key figures, including Ms. Bharti Sinha from the Advisory Board.

In her address, Ms. Sinha praised the women of Amity for their outstanding contributions, acknowledging how they have been instrumental in shaping the organization's growth. Mr. Rajesh Kumar, Head of Projects, further emphasized the importance of women's empowerment, reflecting on the vital role female employees play in driving innovation and success at Amity. Female employees received plants and certificates honoring their hard work and dedication as a token of appreciation.

The event, filled with gratitude and empowerment, turned out to be a meaningful and successful celebration of the strength and achievements of women at Amity Software.

*Ensures cost optimization in the delivery of IT services*

## Construction Progresses on Amity's New Office Building

We're excited to share that the construction of Amity Software's new building is progressing rapidly. With three floors already constructed, spanning 5,000 square meters, the project is well on track for completion soon.

Once finished, this state-of-the-art facility will offer 65,000 square feet of space to accommodate our growing teams and evolving needs. More than just a new workplace, this building marks a significant milestone in Amity's journey. It's a space built to inspire innovation, collaboration, and excellence.

We're looking forward to the opportunities it will bring, both for our people and the clients we proudly serve.

## Amity Software Hosts Donation Drive for Underprivileged Students

Amity Software recently organized a stationery donation drive to support underprivileged students as part of its Corporate Social Responsibility (CSR) initiative. Employees showed remarkable generosity by contributing a large number of stationery items. These donations were handed over to the students of Niveda Vidya Mandir, providing them with essential tools for their education. This effort highlights Amity's dedication to fostering educational opportunities and making a positive impact on the community.

## The Weekday Pop-Off

### Amity Software Builds Positive Workplace with Employee Engagements

At Amity Software, we start each week with a burst of energy and excitement to keep everyone engaged and motivated! From Monday Motivation to Fun Friday, our weekly activities are designed to foster a healthy and positive work environment. Each day brings something new: Employee trivia on Tuesday, wellness tips on Wednesday, a heartfelt thank-you note on Thursday, and a dose of fun to wrap up the week. Our goal is to embrace new challenges, stay motivated, and make every week an energizing experience for all! It's not just about productivity - it's about people, purpose, and the small moments that spark joy. That's the culture we're proud to build, one meaningful interaction at a time.
